Mineralogical Magazine

EDITED BY M. H. HEY

Volume 38

(Nos. 293–300, 1971–1972)

THE MINERALOGICAL SOCIETY

41 QUEEN'S GATE, LONDON S.W.7

1972

ERRATA

VOLUME 29

page 993, line 2 from bottom: *For* McArthur *read* McAndrew

VOLUME 32

page 962, line 8: *For* 1959 *read* 1958

VOLUME 36

page 115, line 20: *For* % Ni in meta *read* % Ni in metal

VOLUME 37

page 722, Table I, under Mineral compositions, Medanitos, Norm: *For* Fs 37·6 *read* Fs 35·8; *for* Wo 4·8 *read* Wo 9·1

page 942, second line of Table (Anal.): *For* H_2O+ 2·00 *read* H_2O+ 2·80; *for* MnO 0·40 *read* MnO 0·04

page 954, line 21 (entry for Agardite): *For* Sarho *read* Sarhro; *for* Ourzazate *read* Ouazazate

VOLUME 38

page 51, Table I, column 3: *For* SiO_2 49·96 *read* SiO_2 49·93; *for* Fe_2O_3 1·58 *read* Fe_2O_3 1·72

page 53, line 24: *For* Andersen *read* Anderson

page 57, line 6 from bottom: *For* YODER (H. A.) *read* YODER (H. S.)

page 77, fig. 1: In the line of lettering at the bottom of the map, the letter i should have no dot (as in the caption)

page 82, line 1 of References: *For* Ünuversitesi *read* Ünüversitesi; *for* Mecmuasi *read* Mecmuası

page 84, fig. 2, line 6 of caption: *For* 12° *read* 12%

page 84, line 4 from bottom: Insert a hyphen between potash and feldspar

page 385, line 4: *For* alphabetically *read* chemically

page 385, line 9 from bottom: M. J. LeBas points out that this is not the first record of eucolite from East Africa; see *Proc. Geol. Soc.*, 1965, no. 1629, p. 25

page 437, line 7: *For* Microbe analyses *read* Microprobe analyses

page 863, line 5, and pages 864, 866, 868, and 870, running head: *For* T. C. Molyneux *read* T. G. Molyneux.

page 863, line 12 of summary: *For* modal and normative hercynite *read* modal ceylonite and normative hercynite

page 865, line 5: *For a* 5.008 Å *read a* 5.088 Å

page 865, Table I, note †: *For* Merenskyreef *read* Merensky Reef

page 867, lines 7, 11, and 12 from bottom: *For* hercynite *read* ceylonite

136

CONTENTS

Errata *page* ii

[NO. 293, MARCH 1971]

J. D. C. MCCONNELL: Electron-optical study of phase transformations (*Hallimond Lecture, 1970*) 1

M. W. PRYCE: Holtite, a new mineral allied to dumortierite 21

H. F. W. TAYLOR: The crystal structure of kilchoanite, $Ca_6(SiO_4)(Si_3O_{10})$, with some comments on related phases 26

SUPRIYA ROY: Studies on manganese-bearing silicate minerals from metamorphosed manganese formations of India. II. Blanfordite, manganoan diopside, and brown manganiferous pyroxene 32

W. L. BROWN: On lithium and sodium trivalent-metal pyroxenes and crystal-field effects 43

R. ELSDON: Clinopyroxenes from the Upper Layered Series, Kap Edvard Holm, East Greenland 49

H. W. HASLAM and B. G. WALKER: A metamorphosed pyroxenite at Nero Hill, Central Tanzania 58

A. F. COOPER: Piemontite schists from Haast River, New Zealand 64

G. W. SMITH and R. WALLS: A redetermination of the unit-cell geometry of scolecite 72

T. ENGIN and J. W. AUCOTT: A microprobe study of chromites from the Andızlık-Zımparalık area, south-west Turkey 76

D. M. RANSOM: Host control of recrystallized quartz grains 83

MICHAEL J. FROST: The Molteno meteorite 89

H. J. AXON and C. V. WAINE: A metallographic study of the Angra dos Reis (iron) meteorite 94

INTERNATIONAL MINERALOGICAL ASSOCIATION: Commission on New Minerals and Mineral Names 102

M. QASIM JAN, D. R. C. KEMPE, and R. A. KHAN TAHIRKHELI: Corundum, altering to margarite, in amphibolites from Dir, West Pakistan 106

M. J. OPPENHEIM: On the plotting of binary and ternary diagrams by computer 109

Book reviews 111

[NO. 294, JUNE 1971]

V. C. FARMER, J. D. RUSSELL, W. J. MCHARDY, A. C. D. NEWMAN, J. L. AHLRICHS, and J. Y. H. RIMSAITE: Evidence for loss of protons and octahedral iron from oxidized biotites and vermiculites 121

J. S. COATS and J. R. WILSON: The eastern end of the Galway granite (with Plate I) 138

B. G. J. UPTON and W. J. WADSWORTH: Rhyodacite glass in Réunion basalt 152

D. J. MOSSMAN: Composition and orientation of clinopyroxene lamellae in Bushveld-type orthopyroxene from the Greenhills ultramafic complex, Bluff Peninsula, Southland, New Zealand 160

GARY M. BOONE and LOUIS A. FERNANDEZ: Phenocrystic olivines from the eastern Azores 165

M. NAWAZ CHAUDHRY: Feldspars from the Meldon aplite, Devonshire, England 179

LUKE L. Y. CHANG and WILLIAM R. BRICE: The herzenbergite–teallite series 186

M. Rieder, A. Píchová, M. Fassová, E. Fediuková, and P. Černý: Chemical composition and physical properties of lithium–iron micas from the Krušne hory (Erzgebirge), Czechoslovakia and Germany. Part B. Cell parameters and optical data 190

B. Baldanza and G. R. Levi-Donati: Evidence of shock-metamorphic effects in the Ergheo meteorite 197

K. R. Stokes: Further investigations into the nature of the materials chlorophaeite and palagonite 205

Herman H. Zumpe: Microstructures in Cenomanian glauconite from the Isle of Wight, England 215

K. Speakman and A. J. Majumdar: Synthetic 'deweylite' 225

E. Z. Basta and W. S. Saleeb: Elba manganese ores and their origin, South-eastern Desert, Egypt 235

P. E. Champness: The transformation manganite → pyrolusite 245

R. W. T. Wilkins: The Raman spectrum of crocoite 249

Thomas Frisch and H.-U. Schmincke: A comment on 'Formation of the hour-glass structure in augite' by D. F. Strong 251

Anthony B. St. J. Webb: Tobermorite from Castle Hill near Kilbirnie, Ayrshire 253

Book reviews 254

[No. 295, september 1971]

R. J. Davis and G. W. Smith: Yttrotungstite 261

J. Pastor-Rodriguez and H. F. W. Taylor: Crystal structure of coalingite 286

Ian Parsons and Rognvald Boyd: Distribution of potassium feldspar polymorphs in intrusive sequences 295

L. Žák: Pyrophanite from Chvaletice (Bohemia) 312

Bruce Velde: The stability and natural occurrence of margarite 317

R. T. Dodd and Charles Calef: Twinning and intergrowth of olivine crystals in chondritic meteorites 324

A. Hall and J. N. Walsh: The beryls of the Rosses district, Donegal 328

T. V. Viswanathan, N. R. Sen Gupta, D. R. Das Gupta, and S. Banerjee: The Sitathali meteorite 335

C. E. Tilley, R. N. Thompson, W. J. Wadsworth, and B. G. J. Upton: Melting relations of some lavas of Réunion Island, Indian Ocean 344

E. Christiaan de Wys and Cawas Kapadia: Effective molecular weights of the components in solution for the system anorthite–åkermanite 353

W. J. McHardy and A. P. Thomson: Conditions for the formation of bayerite and gibbsite 358

Patricia McCurry: The relationship between optical properties and occurrence of some black tourmalines from northern Nigeria 369

Philippa M. Black: Tourmalines from Cuvier Island, New Zealand 374

S. Saravanan and R. Ramasamy: A magnesio-riebeckite from the Samalpatti area, Tamilnadu, India 376

A. T. Rao and K. S. R. Rao: Ferroan sahlite from the Eastern Ghats, Andhra Pradesh, India 377

P. S. Vadilo: Surface structures of Pamir quartz 379

P. J. Bridge: Analyses of altered struvite from Skipton, Victoria 381

A. Reay and D. S. Coombs: Ashtonite, a strontian mordenite 383

J. B. Dawson: A preliminary note on eucolite from Oldoinyo Lengai, Tanzania 385

Book reviews 386

[NO. 296, DECEMBER 1971]

Bernard E. Leake: On aluminous and edenitic hornblendes 389

J. Konta: Shape analysis of moldavites and their impact origin 408

L. van Wambeke: The uranium-bearing mineral bolivarite: new data and a second occurrence 418

A. Ewart: Chemical changes accompanying spherulitic crystallization in rhyolitic lavas, Central Volcanic Region, New Zealand 424

W. L. Griffin: Mineral relations at a peridotite-gneiss contact, Jotunheimen, Norway 435

P. E. Brown: The origin of the granitic sheets and veins in the Loch Coire migmatites, Scotland 446

R. T. Dodd: Calc-aluminous insets in olivine of the Sharps chondrite 451

K. J. D. MacKenzie and J. M. Green: The cause of coloration in Derbyshire Blue John fluorites and other blue banded fluorites 459

Kosuke Onuma and Kenzo Yagi: The join $CaMgSi_2O_6$–$Ca_2MgSi_2O_7$–$CaTiAl_2O_6$ in the system CaO–MgO–Al_2O_3–TiO_2–SiO_2 and its bearing on titanpyroxenes 471

H. A. Gunatilaka and Roger Till: A precise and accurate method for the quantitative determination of carbonate minerals by X-ray diffraction using a spiking technique 481

Robert J. King and John A. Dixon: A new occurrence of vanadium minerals in Leicestershire 488

R. M. McKenzie: The synthesis of birnessite, cryptomelane, and some other oxides and hydroxides of manganese 493

Haraldur Sigurdsson: Feldspar relations in Icelandic alkalic rhyolites 503

K. L. Currie: The composition of anomalous plagioclase glass and coexisting plagioclase from Mistastin Lake, Labrador, Canada 511

Paul C. Lyons: Staining of feldspars on rock-slab surfaces for modal analysis 518

E. W. F. de Roever and F. F. Beunk: Ferrocarpholite associated with lawsonite–albite facies rocks near Sangineto, Calabria, Italy 519

A. Hall and J. D. Taylor: The occurrence of vaterite in gastropod egg-shells 521

P. Povondra and K. Langer: A note on the miscibility of magnesia-cordierite and beryl 523

M. Sabzehei: Dumortierite from Iran: a first record 526

A. C. Chatterjee: Levyne in the Deccan traps 527

S. M. Gandhi: On the ferroan gahnite of Mamandur, Madras State, India 528

J. J. Fawcett, I. Davies, and R. S. James: A modified closure for high-pressure cold-seal pressure vessels 529

Book reviews 532

[NO. 297, MARCH 1972]

Sidney A. Williams: Zapatalite, a new mineral from Sonora, Mexico 541

Clifford Frondel: Jacob Forster (1739–1806) and his connections with forsterite and palladium 545

D. W. Robbins and R. G. J. Strens: Charge-transfer in ferromagnesian silicates: The polarized electronic spectra of trioctahedral micas 551

G. Cocco, L. Fanfani, A. Nunzi, and P. F. Zanazzi: The crystal structure of dundasite 564

Evan R. Phillips, D. M. Ransom, and R. H. Vernon: Myrmekite and muscovite developed by retrograde metamorphism at Broken Hill, New South Wales 570

J. B. Wright: Natural garnet–pyroxene transformation in Cenozoic alkali-basalt from Nigeria? 579

P. G. Rouxhet, J. L. Gillard, and J. J. Fripiat: Thermal decomposition of amosite, crocidolite, and biotite 583

D. Taylor: The thermal expansion behaviour of the framework silicates 593

E. R. Vance and B. W. Anderson: Study of metamict Ceylon zircons 605

J. A. T. Smellie: Preparation of glass standards for the use in X-ray microanalysis 614

G. I. Z. Kalocsai and J. J. Hockley: Titrimetric analysis for silicon 618

S. J. B. Reed: The Oktibbeha County iron meteorite 623

D. R. A. Rushton: Arsenates of copper from Shetland 626

C. M. Wai and C. R. Knowles: The metal phase of the Bustee enstatite achondrite 627

D. Taylor: The relationship between Si–O distances and Si–O–Si bond angles in the silica polymorphs 629

E. Christiaan de Wys and K. J. Bhansali: Variations in optical properties of muscovite due to 70 KEV proton irradiation 631

E. Christiaan de Wys: Corrections to the system anorthite–åkermanite–diopside by means of Gibb's free energy analyses of the systems anorthite–åkermanite and anorthite–diopside 632

E. Christiaan de Wys: Additional data concerning the stability of åkermanite 635

Paul C. Marx: Pyrrhotine and the origin of terrestrial diamonds 636

Book reviews 639

[no. 298, june 1972]

Bernard E. Leake: Garnetiferous striped amphibolites from Connemara, Western Ireland 649

William C. Morgan and Frederick C. Taylor: Granulite facies metamorphosed basic dykes of the Torngat Mountains, Labrador 666

C. M. B. Henderson and F. G. F. Gibb: Plagioclase–Ca-rich-nepheline intergrowths from the Marangudzi complex, Rhodesia 670

V. Divakara Rao, U. Aswathanarayana, and M. N. Qureshy: Trace element geochemistry of parts of the Closepet granite, Mysore State, India 678

L. Fanfani, A. Nunzi, and P. F. Zanazzi: Structure and twinning in spencerite 687

R. A. Eggleton: The crystal structure of stilpnomelane. Part II. The full cell 693

Warren C. Forbes: An interpretation of the hydroxyl contents of biotites and muscovites 712

E. R. Vance and B. W. Anderson: Differences among low Ceylon zircons 721

H. J. Axon and C. V. Waine: A metallographic study of some hexahedrites 725

H. J. Axon and P. L. Smith: A metallographic study of some iron meteorites of high nickel content 736

M. Qasim Jan, D. R. C. Kempe, and R. F. Symes: A chromian tourmaline from Swat, West Pakistan 756

F. Purtscheller, G. C. Brown, and W. S. Fyfe: A note on the controls of the retrograde transformation of andalusite to kyanite 760

Pádhraig S. Kennan: Exsolved sillimanite in granite 763

A. M. Clark: Calciotantalite confirmed as a mixture 765

D. M. Hobson: Boulangerite from Port Gaverne, north Cornwall 767

Gordon M. Biggar: Diopside, lithium metasilicate, and the 1968 temperature scale 768

Book reviews 771

[no. 299, september 1972]

F. Cesbron, W. L. Brown, P. Bariand, and J. Geffroy: Rameauite and agrinierite, two new hydrated complex uranyl oxides from Margnac, France 781

S. A. Williams: Embreyite, a new mineral from Berezov, Siberia 790

L. J. Cabri and D. C. Harris: The new mineral insizwaite ($PtBi_2$) and new data on niggliite (PtSn) 794

J. R. Wilson and J. S. Coats: Alkali feldspars from part of the Galway granite, Ireland 801

Fergus G. F. Gibb: A differentiated ultrabasic sheet on Sgurr Dearg, Isle of Skye 811

A. R. Woolley, R. F. Symes, and C. J. Elliott: Metasomatized (fenitized) quartzites from the Borralan Complex, Scotland 819

S. Vrána and M. W. C. Barr: Talc–kyanite–quartz schists and other high-pressure assemblages from Zambia 837

A. Hall: New data on the composition of Caledonian granites 847

T. G. Molyneux: X-ray data and chemical analyses of some titanomagnetite and ilmenite samples from the Bushveld Complex, South Africa 863

D. J. Dyson and L. M. Juckes: A silica-deficient pyroxene in iron-ore sinters 872

E. R. Vance and H. J. Milledge: Natural and laboratory α-particle irradiation of diamond 878

K. A. Rodgers: The decomposition and analysis of chrome spinel. A survey of some published techniques 882

S. P. Das Gupta: Coexisting hornblende and cummingtonite from the Khetri copper belt, Rajasthan, India 890

N. Bradshaw: An antimonian idocrase from the Bau mining district, Sarawak, Malaysia 894

K. Babruvahan Rao: Beryl and cleavelandite from Bihar, India 896

E. Christiaan de Wys: Piercing-point analysis of the system anorthite–diopside–åkermanite 897

J. C. Butler: A Fortran IV plotting program utilizing an on-line printer 899

Book reviews 901

[no. 300, december 1972]

Bernard J. Wood and R. G. J. Strens: Calculation of crystal field splittings in distorted coordination polyhedra: spectra and thermodynamic properties of minerals 909

G. M. Biggar and M. J. O'Hara: Melilite crystallization in the system $CaO–MgO–Al_2O_3–SiO_2$ 918

W. J. KRZANOWSKI and A. C. D. NEWMAN: Computer simulation of cation distribution in the octahedral layers of micas 926

GERMAINE A. JOPLIN, E. KISS, N. G. WARE, and JENNIFER R. WIDDOWSON: Some chemical data on members of the shoshonite association 936

R. ELSDON: Iron–titanium oxide minerals in the Upper Layered Series, Kap Edvard Holm, East Greenland 946

A. T. V. ROTHSTEIN: Spinels from the Dawros Peridotite, Connemara, Ireland 957

J. V. MAIN, K. A. RODGERS, H. W. KOBE, and C. P. WOODS: Aguilarite from the Camoola Reef, Maratoto Valley, New Zealand 961

M. W. PRYCE: Biphosphammite: a second occurrence 965

M. W. PRYCE: Calcium sulphosilicate in lime-kiln coating 968

S. K. BABU: On the occurrence of chlorapatite at the emerald mine, Rajagarh village, Ajmer 972

DIPANKAR LAHIRI: Helvine in the gondite of Kajlidongri, Madhya Pradesh, India 974

R. V. SATHE and S. S. OKA: High calcic pigeonite from pegmatitic segregations in a dolerite dyke from Huli, Mysore State, India 975

GEORGES CALAS: On the blue colour of natural banded fluorites 977

K. J. D. MACKENZIE: The possible role of sulphur in the coloration of Blue John fluorite 979

Book reviews 982

M. H. HEY and P. G. EMBREY: Twenty-seventh list of new mineral names 987

Topographical index 1002

Alphabetical index 1007
